

IBM Guide Share Europe - Enterprise Modernization Workgroup Meeting May 9-11, 2012 in Zürich, Switzerland.

The Topics for the meeting are:

- Rational Developer for System z
- Problem Determination Tools
- Enterprise Compilers
- Rational Team Concert
- Solutions around Enterprise Development

IBM RDz, PD and RTC product development are participating as usual, and we expect that there will be good interactions between all participants around implementation experiences, product highlights and updates.

Call for Papers:

We are encouraging everyone to forward suggestions for future ideas for topics as well as anyone wishing to present their own solutions and experiences.

Presentation suggestions should be forwarded to the board in due time, and no later than 31. March to be considered for this meeting. A presentation suggestion should include a short excerpt and speaker high-lights.
