

GUIDE SHARE EUROPE Working Groups

THINK GLOBAL – ACT GLOBAL

> 130 Working Groups across Europe

Active member participation is encouraged and fostered by providing numerous opportunities to share ideas and solutions with industry colleagues, both on a regional and international level.

GSE members and IBM work together in close partnership to educate one another on subjects ranging from specific business needs to complex ITC strategies. By maintaining a constant flow of communication between individuals at all levels, GSE members exchange a high degree of in-depth knowledge and information.

The method in the use of computer solutions is decisive for success. Avoiding errors here saves time and money. Within GSE, practical experience in all aspects of information technology is exchanged and successful application solutions are presented in more than 140 Working Groups across Europe. As a result, the installation and the individual benefit from better informed decisions, are better prepared to meet their professional challenges and have unique insight into future technology and solutions.

You will find all GSE Working Groups within the 10 regions and the GSE European Working Group listed on the following pages.

AUSTRIA

Number of WGs: 07

- Databases
- Enterprise Storage
- Function Point
- Linux
- Power & AIX
- Tivoli
- WebSphere

BELGIUM/LUXEMBOURG

Number of WGs: 12

- Architecture
- CICS Systems
- Document/Content Management and Long Term Archiving
- Enterprise Systems Security
- IMS/VS and DB2 Systems
- Large Users
- Linux Systems
- Storage Management
- Tivoli Workload Scheduler (TWS)
- Very Large Users
- VM/VSE User Group
- z/OS Systems

FRANCE

Number of WGs: 17

- AIX
- Business Integration
- CICS
- Content Management On-Demand (CMOD)
- Data Power
- DB2 A
- DB2 B
- DB2 LUW
- IMS
- MAXIMO
- MQ
- MVS (z/OS)
- Open Source and Linux
- Security
- Tivoli – Supervision/Automation (TWS/TSA)
- TSM/Storage
- WebSphere

GERMANY

Number of WGs: 44
