We want to thank all of you who shared your knowledge and experiences and do hope that Dresden was informative. Special thanks to IBM Offering management for allowing the good turnout of speakers from the labs. The next User Group meeting will be:

01.04.-03.04.19 Prague

NH Prague City Hotel****
Mozartova 261/1
15000 Prague
https://www.nh-hotels.com/hotel/nh-prague-city?gmb

Single room incl. breakfast 99.-€ per night. Conference fee full day: 70.-€ :1/2day: 65.-€.
The conference fee includes: conference rooms, unlimited consumption of water, coffee and tea in the meeting rooms, 2 coffee breaks on full days/ 1 coffee break on half day, lunch buffet incl. 1 soft drink, projectors, WLAN. Conference fee calculated on a minimum of 55 delegates.

Currency changes from CZK to EUR can lead to slight changes. So don't forget we need Korunas (*Kč*) not Euros !

Please be aware that our event is unfortunately at the same time as the zBLC.

We plan to start the meeting April 1st at 9:00 Monday…and no that is not a trick 😊
The meeting ends Wednesday at 13:00, at which time there also is lunch included at the hotel.

As soon our travel agent has set up an URL we will send out a mail for your online registration. The payment, like always, will still be done directly at the hotel.

We will arrange for a joint dining Monday and Tuesday evening. I am curious what Dana will recommend.

The rooms are reserved normally until weeks in advance, so please sign up before. After that; room rates and availability cannot be guaranteed, and conference fees are subject to possible changes. If you register after the block reservation expires or do not need hotel booking you **still** need to enroll as well as pay the conference fee.

If any problems, questions or concerns please contact one of the Board.

Call for Papers:
We are encouraging everyone to forward suggestions for future topics as well as anyone wishing to present their own solutions and experiences. Presentation suggestions should be forwarded to the board no later than mid-March to be considered for this meeting. A presentation suggestion should include a short excerpt and speaker high-lights.
